MEMORANDUM FOR THE RECORD

FROM : [REDACTED]  
Chief, Benefits and Services Division

SUBJECT: Physical Conditioning and Recreational  
Facilities

1. A meeting was held in the office of the DDCI on 17 June 1977 in order to discuss our paper on this subject and the most recent OGC opinion. In attendance in addition to the DDCI were: Messrs. Blake, [REDACTED] and myself. STATINTL

2. Before starting on the specific topic, Mr. Knoche asked about the Central Employee Activities Fund (CEAF). Mr. Blake explained that it is a fund administered by the DDA consisting of the excess net profits of non-appropriated fund clubs that were operated in the past at some overseas stations. When these stations were closed, the remaining non-appropriated funds were placed in the CEAF.

3. A general discussion was then held regarding the legal restrictions of using appropriated funds for recreation purposes and the limitations of using such funds for physical conditioning. [REDACTED] reiterated some of the points made in the OGC opinion. [REDACTED] asked if we could use the portion of Section 8 of the CIA Act dealing with health service programs to expend appropriated funds to promote and maintain the physical and mental fitness of employees. It was [REDACTED] opinion that a careful examination would have to be made of the underlying justification for a physical fitness program before recourse to that authority. Mr. Blake indicated that our Congressional Committees would have to be briefed before such expenditures were made from appropriated funds for new programs. He was of the opinion that the \$15,100 needed for access to the facilities area is a security requirement which should be provided for by appropriated funds.

4. At the conclusion of the discussion the DDCI asked the Office of Personnel to develop a revised proposal which would request approval of the following:

a. Use of the proposed site for recreational facilities to be funded by CEAF and EAA.

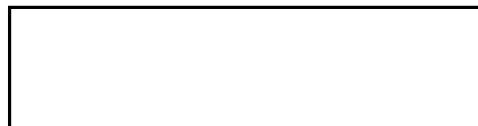

b. Provision in future budgets of specific appropriations for facilities for physical fitness of employees.

STATINTL

5. Mr. Blake is to discuss this matter with Messrs.  to ensure there are no problems in their areas.  has asked to check with State to determine who pays for the tennis courts provided in many overseas areas.

6. When the revised proposal is prepared and necessary reviews made, the DDCI will discuss with the Director.

CENTRAL EMPLOYEE ACTIVITIES FUND (CEAF)

- 25X1  
25X1A
1. ☐ The Central Employee Activities Fund (CEAF) is described in ☐ as follows:

"A Central Employee Activities Fund has been established from excess net profits of existing self-sustaining personnel service or recreational activities and net proceeds from the termination and liquidation of the assets of such activities. Subject to the approval of the Deputy Director for Support, these funds are used for the general benefit and morale of Agency personnel, such as, recreational activities; for the establishment of new self-sustaining activities; or for providing financial relief to existing self-sustaining activities."

25X1A

This Fund originated in November 1960 and was first known as the Agency Central Club Fund. Its initial source of funds was approximately \$21,000 resulting from sale of club property ☐ when that club was closed. Subsequent club closings have also produced revenue which has been added to the Fund. The Fund has also increased through investment income. At attachment A is a copy of a 21 November 1960 memorandum from the Acting Comptroller to the Deputy Director for Support, recommending establishing the Agency Central Club Fund. At attachment B is a copy of a 23 July 1962 memorandum from the Director of Personnel to the Deputy Director for Support recommending a policy that the Fund be used "in support of Agency sponsored recreation and welfare programs in Headquarters or the Field subject to specific approval by the Deputy Director (Support), or his designee, of each transaction involving the use of such funds." At attachment C is a copy of OGC 60-1381 to the Comptroller, dated 24 October 1960, indicating it "perceives no legal objection to the establishment of such a fund."

- 25X1
2. ☐ All expenditures from the Fund require the approval of the Deputy Director for Administration. Financial administration is the responsibility of the Office of Finance; however, since 1966 the Office of Personnel, in the name of the Employee Activity Association, has assumed responsibility as Trustee of the Fund. As such, it carries out deposit, payment, and investment instructions of the Office of Finance. The balance in the Fund as of 31 May 1977 was \$88,492.45.

1. This memorandum requests concurrence in the recommendation set forth in paragraph 5 below.

2. The contemplated closing of the [REDACTED] installation has necessitated closing the [REDACTED]. As per reference (a) it was first anticipated that the net cash balance resulting from liquidation of the Club would be approximately \$2,500; however, subsequent information forwarded via reference (b) indicates that the sale of club property, when accomplished, may raise this figure to approximately \$21,000. In reply to reference (a), Headquarters forwarded reference (c) advising Chief of Station, [REDACTED] to have the [REDACTED] Club transfer to Headquarters the net cash on hand as well as proceeds from sale of club property which will be held in escrow pending establishment of a Central Club Fund.

25X1A

3. The Office of General Counsel was asked to rule on the legality of establishing an Agency Central Club Fund with the proceeds received from the [REDACTED] Club assets. The Office of General Counsel has advised (reference (d)) that it perceives no legal objection to the establishment of such a fund.

4. The Department of the Army and the Department of the Air Force have had in existence for many years non-appropriated welfare funds. Financial support of these funds is derived in part but not limited to a percentage of the profits from the Army and Air Force exchange and motion picture services and from the sale of property remaining when command or unit non-appropriated fund activities are dissolved. Disbursements from these welfare funds may be made for, but not limited to, expenses related to sports, recreational, educational, religious, and welfare programs and activities. The existence of the Army and Air Force welfare funds provides a precedent for the establishment of a central fund for clubs, messes and other facilities in our Agency.

5. Consistent with the proposed treatment relating to  
the funds to be derived from liquidation of [redacted]  
as previously discussed with you, it is recommended that:

25X1A

- a. The proceeds from [redacted] be utilized  
to initiate an Agency Central Club Fund;
- b. An interest bearing savings account be estab-  
lished at headquarters through the facilities  
of the Finance Division, Monetary Branch for  
cash held on deposit for the Agency Central  
Club Fund, with interest accruing to the fund;  
and
- c. Such funds be used for the establishment and  
financial support of non-appropriated fund  
activities of the Agency, subject to the prior  
written approval of the Deputy Director (Support)  
of each transaction involving the use of such  
funds until such time as specific policies have  
been established relating to the control and  
purpose for which the funds will be used.

MEMORANDUM FOR : Deputy Director (Support)

SUBJECT : Agency Central Club Fund

1. This memorandum contains a recommendation for consideration and approval by the Deputy Director (Support).

2. When the [ ] was closed in 1960, the sum of approximately \$21,000 was realized from the sale of its assets. This money was transferred to Headquarters where it was deposited in an interest-bearing savings account designated as the Agency Central Club Fund. To date no withdrawals have been made from the Fund.

3. The Central Club Fund is administered by the Comptroller according to recommendations contained in a memorandum to the Deputy Director (Support), dated 21 November 1960, which stipulates that "such funds be used for the establishment and financial support of non-appropriated fund activities of the Agency subject to the prior written approval of the Deputy Director (Support) of each transaction involving the use of such funds until such time as specific policies have been established relating to the control and purpose for which the funds will be used."

4. The Office of General Counsel in a memorandum to the Comptroller, dated 24 October 1960, stated that it "perceives no legal objection to the establishment of such a fund inasmuch as it has been determined at Headquarters that it will be used for the maintenance of morale and efficiency of personnel living under conditions caused by factors peculiar to the mission of the Agency. The Office of General Counsel memorandum envisions the use of the Central Club Fund to provide recreational and service facilities in overseas areas although it does not specifically bar such use for similar purposes in Headquarters.

5. We believe that these funds could properly be expended in support of Agency sponsored recreation and welfare activities at Headquarters as well as in the field when the use of appropriated funds is not sanctioned. To clarify the issue, therefore, it is recommended that:

MEMORANDUM FOR: Comptroller

SUBJECT: Establishment of a Revolving Fund at Headquarters  
for Use in the Establishment of Service and  
Recreational Facilities in the Field

1. In connection with the termination of the activities of the  
[redacted] Station, there has been made available a sum of money  
(\$2,000 - \$3,000) in the form of non-appropriated funds, being the net  
profit remaining after the settlement of all club accounts.

2. It has been suggested that this money be used to establish a  
revolving fund at Headquarters for future use in the setting up of  
recreational and service facilities in other areas. The Office of  
General Counsel perceives no legal objection to the establishment of  
such a fund inasmuch as it has been determined by Headquarters that it  
will be used for the maintenance of morale and efficiency of personnel  
living under conditions caused by factors peculiar to the mission of the  
Agency.
